**SLOPPY
GAMES**

Game Overview

The game lasts 14 rounds. In each round, you roll a six-sided die and draw matching tiles onto the map. You shrink monuments, collect souvenirs, and gather many other things. These give you points or additional tiles. After the 14th round, all players add up their points. The player with the most points wins the game.

Turn Structure

1. Roll a six-sided die (D6).
2. **Choose one** of the two tiles adjacent to the rolled number.
If you can not or do not want to choose one of the outer tiles, you may choose one of the two tiles in the middle instead.
3. Draw it onto the map, **orthogonally adjacent to the most recently placed tile**.
4. Activate bonus tiles if applicable and mark off scoring areas and collected objects.

Tiles (Polyomino Shapes)

General Rules

- There are regular tiles, which you gain through the dice circle, and bonus tiles, which can be unlocked.
- All tiles must be placed orthogonally adjacent to the most recently placed tile**, unless a rule states otherwise.
- You may rotate and flip all tiles however you like.
- All tiles and **bonus tiles must be placed immediately**, unless a rule states otherwise.

Monument

- Cannot be drawn over or crossed.**
- A monument is **only scored if all orthogonally adjacent spaces are occupied**. Diagonal spaces do not matter. Rivers, the edge of the map, and other impassable objects also count as occupied spaces.
- Mark it off in the scoring area, starting from the left.

Souvenirs & Bonuses

- You **collect** souvenirs, bonuses, taxis, buses, and **everything else by drawing over the symbols** (unless stated otherwise).
- Exceptions are skyscrapers, metro stations, suburban train stations, and landmarks. You may not draw over these.**
- Visual hint:** Elements that can be covered have inverted corners, while impassable elements have normal corners.

Tip

If you collect multiple bonuses on the map, circle them and use them in any order you like. Once you have used a bonus, cross it out to keep track of it.

Souvenir

1. Cover it to collect it.
2. Mark it off in the scoring area, starting from the left.

Must-see

1. Cover all spaces of the area to score it.
2. Mark it off in the scoring area, starting from the left.

River

Cannot be drawn over or crossed. It is deep water, and you are not Jesus.

Marking & Checking off

Boxes and circles with dashed outlines in scoring or special areas are completed with a solid line once achieved.

-  Boxes or circles with solid outlines are usually crossed off.
-  On some maps, you first circle a space and may cross it off later.

Final Scoring

Add up the points from areas A, B, C, and D.

The player with the most points wins the game. Ties are resolved with a Klingon singing contest.
